General Meeting 10am - Carrier Bead bracelet

Our March program introduces us to the new Carrier beads. These are small plastic shapes, covered with a peyote strip and strung together. Beki Haley of Whimbeads has done a tremendous job of creating excitement around this new component and has graciously given us permission to share this with all of you!

We will be making a bracelet using these fun beads. Advanced registration will be required and will be available on Feb 24th on our website! The class will cost \$20.00 and will include your first kit, which is available in 5 color ways. Sandy Brock, Susan Sudia and Rachel Hungary will be guiding us through this hot new component and its many uses

Depending on the popularity of the class, additional kits may be available for purchase.
