

Member Directory

A new feature available to us is an online Member Directory. This list can include all active members and various profile information, based on each members' preference. The Member Directory is **password protected**. Only active members can access the directory after logging in. Each member manages which of their profile fields are available to other members.

Member Privacy Options include:

- List your name in the member directory
- List your address in the member directory (includes an online map)
- List your phone number in the member directory
- Allow members to email you directly using the email address in the directory.

Note: As part of moving to this new system, only member names, their city, state and zip code are now shown in the directory. Email is currently active for all members.

Manage your Member Profile

1. Select the Renew/Manage option from the Membership tab on our RMBS website.
2. Enter your Id and password.

Your **Id** is the email address that you used when you joined RMBS

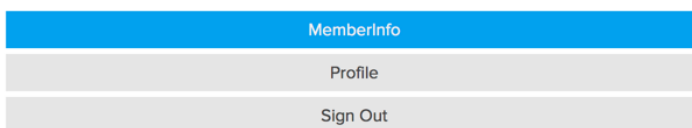

Your **password** is rmbs plus the house number of your address on file

3. After signing in your profile information will be displayed. Edit as needed. This is also where you can easily change your password. Be sure to save changes if edits were made.

Password:

[Change](#)

4. If you don't need to change your password or edit your address information, you can click on Profile to go directly to your Privacy Options.

5. The following are the Privacy Options available for members:

- Do not list in directory
- Do not show street address in profile
- Do not show phone number in directory
- Privacy: Do not allow messaging

6. Check the boxes to remove the specified info from the directory. Be sure to save any changes made.
